

TRAINING

Level 2 Online (Applied Turf Culture)

Course description

The online Level 2 modules for cricket surfaces will allow you to understand how technical aspects of turf maintenance can influence overall pitch quality, helping to create a suitable annual maintenance plan for your playing surface.

What will you learn?

- The performance requirements of a playing surface;
- How to monitor the quality of a surface;
- How different maintenance activities might influence pitch playability;
- The responsibilities of operatives and organisations;
- The purpose of risk assessments;
- Different soil types;
- Basic drainage design;
- How to identify turf grasses in general;
- General control methods for undesirable organisms;
- The use of annual work schedules; and
- How to create an annual work schedule.

Is this training course suitable for me?

Ideal for the volunteer or new employee, develop your skills online and learn about the importance of preparing a playing surface with the implementation of an annual maintenance plan.

What can I do after this course?

Explore a range of options from 1-day training courses to full online qualifications which are recognised by your relevant national governing bodies.

Cricket Surfaces
